Excel Academy has established a reputation as a global leader in improving productivity and success in the workplace through Excel.

Dan Stillerman founded Excel Academy in 2014. This came after 4 years of working as an Actuary, and pushing Excel to the limits. To date, the team has impacted tens of thousands of people in SA and globally.

Courses

Excel Academy offers 3 courses – designed to build fundamental Excel proficiency, confidence, actionable business insights, time-saving efficiency and automation.

The Foundation | Working Smarter | Best Practices

- Highlights: Shortcuts, formulas, charts.
- 'Beginner to intermediate' Excel.

Data Analysis | Dashboards | Business Intelligence

- Highlights: VLOOKUP, PivotTables.
- 'Intermediate to advanced' Excel.

Macros & VBA | Automation | Tool-Building

- Excel's secret programming language.
- No prior coding experience required!

Delivery method

Excel Academy's course delivery method has evolved over the years from in-person training to '**Gamified Blended Learning**'. See overleaf for a step-by-step guide.

Personalised. Go at your own pace, pause, rewind, rewatch.

Flexible. Study in your own time, in the comfort of your own home or office.

High touch support. Regular check-ins, progress leader boards, technical support via WhatsApp, email & phone.

Gradual learning. Complete the course over a period of time and avoid information overload.

Avoid falling behind on your work. No need to be out of the office for 8 hours straight.

Affordable. We're proud to share our efficiency gains with you through very competitive pricing.

Lifetime access. Rewatch and refresh.

EXCEL ACADEMY

“The most engaging Excel training we have ever experienced.”

~ Sophie Bristow | Bloomberg NYC | Learning Design and Technology

“High quality material, professional and passionate presenters. Can't wait for the Excel 202 training. Definitely recommended!”

~ Justin Johnstone | Mazars SA | Audit Trainee
